

Infrastructure that grows with your MSP

Scalable. Resilient. Built for how MSPs actually work.

Our high-performance infrastructure helps MSPs grow profitably – without the overhead of in-house management. Whether you're scaling services, migrating clients to the cloud, or securing regulated industries, we give you the tools to do more.

Why MSPs choose ServersAustralia®

Modern MSPs need more than just hosting. They need outcomes.

Our custom solutions help you scale without surprises – with predictable pricing, full control, 24/7 local phone support and dedicated account management.

- ✓ **Scale without upfront costs**
Grow your services on your terms – with scale-ready pricing and no heavy investment required.
- ✓ **Simplify your stack**
Cut through vendor sprawl and global cloud complexity with a local platform that puts you in control.
- ✓ **Deliver rock-solid uptime**
Rely on Tier 3+ Australian-hosted infrastructure with built-in redundancy to meet uptime and compliance needs.
- ✓ **Support that's actually supportive**
Get 24/7 access to real engineers, based right here in Australia – no scripts, no runarounds.
- ✓ **Solutions designed for real MSP needs**
Whether you're focused on performance, compliance, or simplifying service delivery, we build practical solutions that work for you.

Resilient Cloud Hosting

For MSPs delivering uptime-critical services

- Always-on, high-availability cloud infrastructure
- Geo-redundant architecture built-in
- Veeam Cloud Connect for secure offsite backup

BEST FOR: SAAS, PRODUCTION WORKLOADS, HOSTED APPS

Managed Cloud & Migration

For scaling cloud without scaling your team

- Fully managed, enterprise-grade cloud platform
- Seamless onboarding and migration support
- Resell-ready with simple, scalable pricing

BEST FOR: INFRASTRUCTURE REFRESH & SERVICE EXPANSION

Multi-Site Co-location Resilience

For MSPs managing their own infrastructure

- Tier 3+ co-location in major Australian cities
- Diverse-path private networking between sites
- Extensive cloud/carrier interconnection

BEST FOR: GEO-REDUNDANCY & BUSINESS CONTINUITY

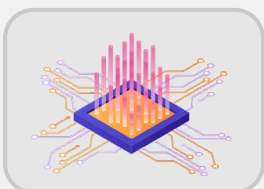

Security & Compliance

For regulated industries & security-focused MSPs

- 100% Australian-hosted for sovereignty
- Immutable backups & DRaaS
- Managed Fortigate firewall & DDoS protection

BEST FOR: GOVERNMENT, HEALTHCARE, FINANCE

Virtualisation & Performance

For speed-critical virtual environments

- Enterprise-grade high-performance clusters
- NVMe storage for blazing-fast access
- Advanced resource optimisation tools

BEST FOR: VIRTUALISATION, DR, HOSTED APPS

**Ready to scale
without the
guesswork?**
